The basic idea:

The left side of this packing list is broken into Kits. Each Kit 's contents is verified while pre-packing. When you are doing the final packing, check off each kit as it is packed. The right-hand side is divided into Day, Overnight, and SHOW, and additionally divided into Horse and Human. The idea is that you add on to what you need for each level of outing. You might not need your tack trunk and braiding kit if you are trailering out for a quick trail ride at the horse park. I'll probably make a Complete version (this one) and a Dressage-Only version.

I plan to write a Pre-OutingTo-Do list for the other side of the sheet. For example:

Pre-Outing Checklist	Post-Outing Checklist
